She hung the cage at the window;

"If he goes by," she said,
"He will hear my robin singing;;

And he will bow to me I know.

The robin sang a love-sweet song,

A pink-eyed rabit, white as milk.

She took her bird from the window "He need not look this way,"

And when he lifts his head

"I am a fool!" she said,

The young man loitered slowly

"I wish that he would come!

Something like a quarter of an hour before the time set for the opening the crowd settled, each one having selected what he thought to be the best place from which to make the start. Every thing was now ready and every one was on the alert and on the lookout for the signal that was to be given. For miles each way from where

your correspondent started it was one solid mass, and yet in all this great crowd and as exciting as the novelty of the situation was, the order was good, and when finally the signal gun was fired and the great rush had begun there was not, as has been reported by some of the papers, a general discharge of revolvers all along the line, but on the contrary the order was exceptionly good. Every body seemed to be attending strictly to thier own business. There may have been, and doubtless was, in some instances foul means used to get possession of a particularly good piece of land, but from start to finish I nev-The young man raised his head; The maiden turned away and blushed, er saw any thing out of the way in any one. A Political Prospect.

In the Congressional election in which Wm. McKinley, of the State of Ohio, was defeated in his own District, the Democrats at Sulphur Springs predicted that he couldn't be elected as a Constable, but I predicted that he would be the next Governor of Ohio and he was. - I now predict that he will be the next Governor by a majority of fifty thousand. I claim that if there is any man in the United States that deserves the nomination for President it is William McKinley. One reason is that he has been abused by the Democratic Party more than any other man in the Nation. His yoke was once heavy but

I predicted at Sulphur Springs after the polls closed at the last Novemelection that Grover Cleveland was elected and I also stated that the business of this country was in a flourshing condition, but that the industries of our country would be paralyzed before the next November election. I now predict that the Republicans of Ohio county will go to the polls and vote on the seventh of November and also, it Tom Smith and Zeb Shultz will see that the Democrats are gotton to the polls, and especially the rich ones, that the county of Ohio will go Republican. The reason is, the rich Democrats, if there are any danger of death, will not cast a vote for the Democratic ticket if it is the last thing they do on earth. Because no one wishes to commit any great crime on the eve of death.

The Democrats being ignorant of their platform that was adopted at Chicago, I will give you the sum and substance of its meaning.

The first thing in the platform is prejudice. The Democrats prejudiced the voters by telling them that the Republicans had enacted a Federal Election Law that would retain them in office the remainder of their days. But for proof of it being a lie the Democrats swept the United States under that very law.

Now with your nonsense. The Democrats indicted Wm. McKinley on two different charges in the United States Court for his tariff bill. They claimed that the bill was unconstitutional, and it was tried before a bench of Democrats and Republicans in the Supreme Court and it was there decided that the bill was not unconstitutional. Now the body meets in Chicago after the Court had decided that it was constitutional and they declare in their platform that it was unconstitutional, a farce and a humbug. More nonsense.

Mr. F. Pirtle charges the Democratic party of being in favor of free raw material and retaining the tariff on manufacturies. I claim that he lied on the Democratic platform, for the platform declares that a protective tariff is unconstitutional, a farce and a

Now for Grover Cleveland and the White House. He is in a terrible fix. He called his Congress together on the 11th day of August and they have been there now going on three months and they never have got a bill to a vote. Under his former Administration he had a Republican Senate and a Democretic House and he had the exquisite pleasure of vetoing over four hundred bills. He had just as well return to Buzzards Bay and go a-fishing as he did on Decoration Day.

Now for a trip to Fordsville. On my way I fell in company with a crew of rialroad hands. Among them there were Democrats, Republicans and Third Party men. One in particular, who used to be a strong Democrat, but is now a Third Party man, was gi ving the Democratic party fits. He reminded me of the prodigal son. He talked pitifully, and said that his father and six brothers were Republicans. From his talk he reminded me of the prodigal son, in his rags and tatters on his way home. May he arrive there in safety and never again go estray. More next time.

Last year a Board of School Trustees in the county at a cost of \$40 to the District, and in opposition to the advice of other parties, lurnished their school-house with old tashioned home-made desks instead of modern patent desks, and now the new School Law comes and condemns their new desks, compelling the Trust ees to furnish other and better ones. The old desks are almost a total los and thus the District is put to an expense that might have been avoided by Trustees up with the times, Again, another Board of Trustees in a District whose house had been condemned found it necessary to change the location of their school-house site and so purchased an acre of ground, for which they paid \$10. They have since sold \$10.50 worth of timber off of the lot and still bave a nice grove

Ar the recent session of the Cour of Clains a committee was appointed to look into the advisability of building a brick wall and iron fence around the Court yard, and to advertise for bids for the work in order to determine the cost and to report at the January term. Now, that is business and common sense. The present wall is rotting out and needs to be replaced at once. It will be a waste of money to build another wooden wall. By all means let us have the brick wall. As for the fence, its present condition speaks volumes in its own condemnation, and an iron fence is what we need. The county pride, public convenience and even common decency are cast aside by the present condition of the Court yard, and the people will set the seal of their approval upon this public-spirited action of the Court. Conservative estimates place the probable cost of the wall and fence at \$1,500. The Court will make the appropriation in January if the people express the in-

MR. T. J. SMITH has had his unikeness and a short sketch of his life nserted in the "In and About Kentucky" column of the Courier-Journal. From reading the comment one would suppose that the Democratic nomination was thrust upon him, when the very opposite is true. "Without being a candidate," the writer says, "he was nominated by his party in Mass Convention at Hartford in Septem. ber." Now, everybody at all acquainted with the facts, knows that nothing could be farther from the truth than the statement that Mr. Smith did not seek the nomination. He was over-anxious to run in 1891. when F. M. Petty was nominated. which nominated Petty to know if he was a candidate, and instead of declaring himself either off or on he whipped the Devil around the stump, so to speak, for at least an hour in three different speeches very much to the disgust even of his own friends. From that time on till his nomination ed upon the subject by anybody but

articles of turniture named and described in language that cannot be misunderstood. The great majority of Trustees in Ohio county at least are supplying their houses as rapidly as they can. Quite a number already have their furniture, others have orders out and are expecting theirs in a few days and still others are preparing to make orders at once. Trustees generally are taking hold of the work with energy, and a general awakening of the people to the needs of our schools is the result. Great good is being accomplished. A very few districts are trying the expensive experiment of attempting to fulfill the requirements of the law by supplying their houses with home-made seats. Nearly all are buying patent furniture outright, and only the smallest number are detying the law altogether. There are, we are sorry to say, a few Boards declaring they will not comply with the law, and the patrons of at least one district have entered into a contract binding themselves individually to pay their proportional part of the expenses of the Trustees should they be indicted and fined for their failure to comply with the law. With this backing the Trustees are openly defying the expressed will of the people of the State as written in our statutes, and refuse absolutely to purchase the furniture required by law. One or two members of the Board would have been willing to purchase the turniture but the "District kicked" and assured them with the above named agreement, and they have folded their arms in security and thus set themselves up to dety the Commonwealth. All this occurs, too, in a community noted alike for its intelligence and its religious devotion. The School-house is situated within one hundred yards of the altar sround

WASHINGTON. Circumstances, aided by the toadies who constantly surround him, have this week greatly aggravated the "big head" with which Mr. Cleveland has He was called upon in the convention for a long time been afflicted. He thinks that it was himself alone who caused the sudden cellapse of the opposition to the unconditional repeal in the Senate and he is in consequence disposed to be more autocratic than ever. The sudden change in the tactics of the Senators opposed to the Voorhees bill, while seemingly a miracle, is easily accounted for on common sense grounds. It must be reengaged in secretly seeking the Dem- membered to start with that no Senator has been at any time opposed to the repeal of the purchasing clause of his henchmen he always forcibly des the silver law. It was the uncondinied his candidacy. He denied to tional repeal of that clause that the Mac Porter a tew days before the silver Senators opposed, because they Democratic Convention that he was a | thought they could thereby secure a candidate, and yet he was seeking it compromise in the shape of an amend- that he was a logician of the greatest ment that would provide in some depth. way for the continued coinage of silver money. After Senator Sherman served notice on the Democrats, in his great speech, that the Republican Senators who were committed to unconditional repeal would not aid the Democrats in arriving at any compro-

ent situation.

To all appearances, at this writing, the passage of the Voorhees bill by the Senate is only a question of a few hours, although there is still a possibility that another dead-lock may be brought about before the final vote is taken. There are several things which may bring about a dead-lock, chief of which is the belief on the part of many Senators that the Voorhees bill should be amended so as to provide for any issue of bonds, not only for the purpose of strengthening the gold reserve, but to provide the money to pay the current expenses of the Government, the policy, or lack of policy, of the Democratic Administration and Congress having resulted in reducing the receipts of the Government from all scources to an extent that it is unquestionably alarming. Senator Sherman has informed the Democrats that the Republicans considered such an amendment to the bill necessary. The Democratic leaders are in a quandary, they know it will have to come to an issue of bonds sooner or later, but because of the almost solid opposition of the southern Senators they fear to propose such an amendment themselves and fear to allow the proposition to come from the Republicans, lest the honor of preserving the credit of the nation should be given by the people to the Republicans. They wish to pass the bill without amendment, and, in the usual Democratic style, to allow the question of perserving our national credit to drift along as far as possible. The Government is already, taking Secretary Carlisle's own figures, practically carrying a floating debt that is increasing at the rate of \$5.000,000 a month. This is an injustice to the creditors the Government that

orable business point of view. There are other proposed amendments to the Voorhees bill that may make trouble before they are disposed of, and every one of them will have to be voted upon before the vote upon the original bill can be taken. Should the Voorhees bill get through the Senate all right, and according to present indications it will, it will then have some trouble in the House. But the trouble in the House will be principally that of securing a quorum of repealers, the silver men having served notice that they will not help make it. An attempt is now being made to get the numerous absentees in their seats by Monday. Should it succeed the bill can be put through the House in short order, owing to

the existence of cloture. The Democrats of the House do not tion 4000 copies of the recent tariff hearings before the Ways and Means Committee: the arguments presented in favor of protection are too nearly unanswerable to suit them The House Committee decided that only 2,000 copies of the book should be printed for the use of the House, it being tacticly understood that the Democrats would suppress as many of them as possible. The Senate Committee, at the suggestion, it is said, of a Democratic Senator who thinks protection a good thing, notwithstanding the Chicago platform's assertion to the contrary, amended the resolution so as to raise the number to 4,000, one half to be for the use of the Senate, and it has been so adopted.

Little opposition will come from any quarter to an immediate adjournment of Congress as soon as the silver question shall have been disposed of. There is a general disposition on the part of the Senators and Representatives to go home and talk it all over with their constituents before the begining of the regular session. And it is more than probable that some of them will hear some unpleas-

ant things when they get back home.

It was all a fraud. The forage cap or one side of his narrow head, the worn out livery coat with epaulets, even the leathern strap, suspending from his shoulder his box of knavish wares, affected a military air and countenanced

his lies and deceptions. The face was not repulsive even now Some distinction appertained to the heavy mustache, and the hollow beneath the high cheek bone, the crow's feet around the eyes, the tanned, weather beaten ruddiness of his complexion, might have betokened honorable service in poisonous swamps or under burning skies, instead of shifty, footsore wander ings with alternate hours of want and

He dragged himself to the dusty grass beneath the "Five Ashes" at the four rossroads. He was faint, for the hill had tried him, and sat panting with his back against a tree. Then he opened his box and began rolling infallible pills between Lis filthy finger and thumb. Their composition was a secret, but doubtless did some people a lot of good.

For 20 years his heart had never sofcned with a sentiment, his soul never quickened with an aspiration, and now is wandering eye, resting on a finger post across the road, mechanically read 'Upton. Leigh. Sutton-Darcy. All so familiar once, and the last his

birthplace! A strange impulse, absolutely unreasonable, for recognition might still be irresistible desire to see the place again, even though it were by stealth at night. From the boughs above his head came the "pink! pink!" of a chaffinch, and through the filth and fog of a quarter of a century of evil, indistinct in the fumes of drink and smothered in its own futil-

ity, gleamed a reminiscence clear and sharp as the bird's note: An old farmhouse thatched and stone built, with mullioned windows. In the garden a tall pear tree, with yellow buds glistening in the early spring, and beneath a youth with a gun peeping to get a shot. Then a man in breeches and hose, clderly, but hale, drawling half humor-Why, Jack, my bwoy! Thy shots The old people must be gone now, for

"Small?" "Tidden zo wonderful small." Satisfied with the subterfuge of these questions, he sat down and continued

'Any o' the name of Craddock live here now! "Craddock, eh?" grinned Abs. "What dost zay, Abe?"

"Noo fear!" said Abe. He hesitated. But the longing to know overcame his judgment like the craving of a vice.

"And the farm at the foot of the hill. Who lives there?" "Mr. Craddock, be sure.

"Noo fear!" said Abe.

John Craddock nervously rose, straightened his back and fell into his familiar patter. "Yes. I'm an old soldier, wounded in

the trenches before Sevastopol and starved at Cawnpoor, and when I'd spilt my blood and ruined a fine constitution in the service of my native land they gave me my discharge and threw me upon the world without a penny. But, happily, among the prisoners taken by the British forces in that memorable war was the private physician to the Ranee of Jhansi. Seeing me writhing with rheumatism-to which, gentlemen, I was then a martyr-his feeling heart confided to me, under an oath of secrecy, the instimable blessing of a never failing remedy. These pills, gentlemen, taken in time are a reliable cure. If you have ver seen crooked legs, stiff arms or a back as bowed as a reaping hook, take a couple of these pills-four and twenty in each box. The price is twopence, and I guarantee, if kept dry, the contents will never deteriorate. Thank you, gentlemen. I wish you good evening.

His glibness had been successful; but ill at ease, he shuffled on to the old house with the pear tree. A silver maned colt was reaching over the paddock rail, the image of the roan mare they used to call Rube. All was quiet and prosperous, and in the garden path stood the familiar figure. He slunk into the shadow of the churchyard wall. Yet it was only Dick, grown into the substantial staidness of his father's place. He went to the low thatched house standing all askew, with the stalls and the wagon shed where he and Dorothy used to meet. He would sleep that night in one of the wagons. It was scarcely dusk, but the life came back quite clear ly. Work was over, and nob come, so he went in and climbed up out of sight.

He heard a light step and peeped over the tailboard. There stood the Doll Sanford of years ago, with budding womanhood beneath the open neck of her print frock. She had run out in haste. Her lips were parted. He could see her face looking toward the gate into the orchard. Then came a firmer step just as when they said he was too wil for their Dorothy.

Your correspondent had the pleasure of visiting, on last Sunday, the much noted place, "Dark Hollow," two miles East of Fordsville. After leaving the public highway and picking my way for two hundred yards, through briars and bushes, stumbling over fallen timber and then climbing a high fence, I looked down from that grand old majestic rock into the place called "Dark Hollow" and continuing my walk I soon found a place to descend. On reaching the bottom I glanced around to find that I was surrounded on every side but one by unsurmountable cliffs of overhanging rocks. It is rightly named, for though not shrouded in midnight darkness, it is dark and foreboding and as I stood and gazed upon the handiwork of nature, watching the little drops of water as they fell silently from the precipice above me. the words, "this is a place for sober thoght" came unconsciously to my lips. H. E. Hill, of Paradise, and Miss Ollie Cox, of Rochester, were married yesterday at the Hartford House by Rev. G. J. Bean. Mr. Carson invites all wedding parties to make his hotel headquarters.

Mr. Steve Daniel and wife, of Olaton, have not lived happily together for quite a number of years. On last Friday Mrs. Daniel told her husband that she wanted to go to Hartford and bring suit for a divorce and wanted a horse to ride. Mr. Daniel refused her the horse and getting on one horse Hatched-3 Boys. and leading the other he started off telling his family that he was going to Indiana. As soon as he was gone Mrs. Daniel sought legal advice and on Saturday took all the movable property about the place, live stock as well, and moved it to Caneyville. On Sunday night Mr. Daniel, who had only gone over to Fordsville, returned home and to his very great surprise found his wife and tamily gone and with them all his property that could be taken away. It is expected that the affair will be brought into the courts and a lively time will no doubt be the result,

A BRIGAND LOVER.

- Why do you look at me so, Germaine? Why do you look at me so, Germaine?
 Why is that glare in your scornful eyes?
 Troubles we must have, you know, Germaine;
 Then you're a fool to let temper rise.
 What though your hair be a grown of flame,
 Need you enkindle my hate to fire?
 Ilove her! Yes, and that's why she came,
- ou may stifle your futile ire. Deep are her eyes as the dusk, Germaine,
 Deep as the dusk and of mournful brown,
 Smiles like the faintness of musk, Germaine,
 Brows like a queen's, but too soft to frown.
 After your passionate love and hate,
 Sweet, full sweet, will her mildness be,
 Like cooling winds when the day dies late,
 Like harbor after a stormy sea.
- There, will you never be still, Germaine?
- Strange that you're woman enough to cry. What! you would strike me to kill, Germain
- Taste my good blade for your pains—and die!

 Here ye are, men, with the other one,
 Yes, dead is Germaine, as ye see.

 There wasn't room enough 'neath the sun
 For the old love, the new love—and me!

TWO OF THEM.

Early in the winter of 1863 I was ordered to report at Benton barracks, St. Louis, to assist in organizing new

It looked like snow when I left Philadelphia, and it did snow worse and worse as we speeded farther west. By the time we reached Terre Haute, Ind., things looked very blue for getting on.

Anxious not to lose a chance to reach my station, I "held the fort" in the cars the conductor assuring me that the engine and mail car would go ahead any-how, and that I could be thus "put

through. I was awakened by the brakeman, who informed me that the conductor had gone to the hotel, leaving him to wake me and say that there was no hope for anything on wheels going out that night My disappointment rendered me angry and unreasonable. I rose up in m wrath and anathematized the road and all connected with it, high and low. A he advised me to stay in the cars, I de

termined not to do so. I had been for some eight months a my home, recovering from an ugly wound in the face received in our first advance against Richmond. This was not entirely healed, and my head was "in a bag"-a large covering inclosing my face and head, leaving only the left eye and mouth visible-and this, while it appealed to the patriotic, made me a

queer looking figure. In the baggage car, chained to my trunk, was Mac, my dog, a large English greyhound, a pet I had brought from home through a feeling of sentiment Once determined to sally forth, I went to the baggage car, untied Mac, opened my trunk, exchanged my dress overcoa for one of rough blue, drew on long boots outside my trousers, and strapped on a belt with two six shooters in hol sters. Receiving information as to the direction of the hotel from the brakeman and calling Mac, we plunged into the storm. On and on and on we blun-

ing close to me and whining piteously. Suddenly I heard a noise, and forcing my way against the wind and snow to ward it came "bang up" against the side of a house. Under this partial protection I looked along and was cl. red by the sight of a gleam of light which came from an open window. I quickly found the door of the house, and with Mac entered the dingy barroom of a third rat lager beer saloon. It was about 1 o'clock at night. The proprietor was a rough, surly German. He stared with astonishment as we burst in upon him. "Can I stay here tonight?"

dered and stumbled, the poor dog keep-

"Why not? Look here, old man, I look pretty rough, but I've got money to pay for everything I want or order,' and I showed him a large roll of greenbacks. "If you can't give me a bed, make up your fire here so it will keep

"Vell," he replied, with hesitation, "I haf von room got, unt in't two bed is, bud der is von man dare already." "I don't care if there's an elephant in the one bed, so I get the other," said I. "Let's have it right off."

all night, and I'll pay you well to let me sleep on chairs in this barroom."

"Der dog he will here shtay, eh?" "No, sir-ee. That dog goes where I do. I'll pay for him like any other Chris-

tian. Put it in the bill." With a grunt and a shrug the heavy old fellow lighted about half an inch of tallow candle, and telling me, "Come on. then," led the way out of a side door and up dirty, rickety stairs to what might be called the "front attic." As we passed a door on the second floor a woman's voice called to the man. I suppose she asked him what he was doing, as he answered that he was only going to show "dis feller to bet."

The room in which he placed me was mean in every way-one strip of rag carpet in the middle, a poor bed under each slope of the roof. He placed the candlestick on a rude shelf, and with a grunt took his departure.

I looked around-and did not like the appearance of things. I saw a lot of rough clothing piled on a broken chair by one bedside. I took the candle and went quietly over to survey my room-mate. I was not prepossessed in his favor. He was a sallow looking chap. with a big black beard and tangled hair. The outlines of his figure, curled up under the blankets, seemed to indicate that he was about 7 feet high, and I could see that he was feigning sleep and watching me.

I determined to "bluff it through," if possible. Placing the candle again on the shelf, I unbuttoned the overcoat and drew forth my big "navies;" putting them on half cock, I swirled the cylinder around and looked carefully into each chamber; then with a sigh of relief, and as if to say, "That's good for six shots anyhow," I laid them on the bed I was to occupy. Then I pulled the old slouch hat as far over my ears as possible, turned down the blankets, and with boots, overcoat and hat on, turned into

The pistols I placed one on each side of me; the knife I laid under my back. I wakened Mac, who, totally exhausted, was asleep on the floor, made him jump in and lie down close to me, and then pulled the blankets over us both. I quickly dropped into a half sleep. A movement from the other creaky bed awakened me. I opened my eyes, and by the dull snow light which straggled through the single window could see the outlines of the man in the other bed, and

he was sitting up. In an instant I was on the alert, but made no movement. He leaned forward and seemed to listen. Then he dropped down again. In about five minutes he once more raised himself and for a time was motionless. Then one leg was put outside the cover; then the other, and he stood erect. With the atmost caution he invested his long legs in their proper garments, and then gathering up his other clothing and boots in his arms he

stole quietly as a robber out of the room. I heard him descend the stairs and knock lightly on the door of the land-lord's chamber. Several times he knocked. Then the doors opened, and I could hear the dull muttering of the big German, the shrill whispers of a woman, and earnest though low tones, which must be those of the stranger. Then the two men went down into the barroom, and I

decided that I was "in for it." I crept out of bed and went to the door-no lock or catch was there. I looked for something to brace against it. Nothing could be found. One of the two chairs had only three legs, and neither had any

back. I was caught in a trap. I had fought my way through every grade from private to captain, in the field, and done every line of duty from picket to pitched battle, but I never had such trying hours as I passed in that bed. I could recognize the shuffling of stocking shod feet on the first floor and could hear a steady conversation for about 15 minutes. Then all was quiet for a time. Next I heard a heavy, but cautious tread, ascending to the landlord's room, and the woman's whispers

were renewed. The garret room door was opened just crack. There I fastened my gaze. To that point I directed the barrels of my pistols. I heard the stairs creak and the

wind howl. I watched and waited and finally fell asleep. When I awoke, Mac was licking my face and broad daylight was streaming through the window. My pistols lay where they had fallen from my hands. I felt in my pockets. There was my money all right. Quickly I made my way down stairs. In the barroom, which seemed rather cozy by morning view, was the host, who now looked an honest, sturdy fellow. "Can have breakfast for myself and dog?"

"Well, I guess so; after a bit." And all the time he was eying me most euriously. I took a seat by the hot ably damaged. stove. He came and rattled it a little

with the poker, and at last said: "Say, vat mit dat other feller you do lasht night dot you so moch him skeer?" "Do!" said I. "I didn't do anything. and as to 'skeer' I'll bet a horse h wasn't half as much 'skeered' as I was-

Our business continues to grow, as the above statement will show, both in magnitude and prosperity. Two years ago a deposit of \$25,000; one year ago \$45,000; to-day \$64,000. This is due to the fact that the young men are beginning to realize that it is not the money made but the money saved that sets them up in business. The man who saves each day and puts at interest fifty cents, will in fifty

DEAR SIR:—I have been using your cure for tobacco habit, and found it would do what you claim for it. I used ten cents worth of the strongest chewing tobacco a day, and from one to five cigars; or I would smoke from ten to forty pipes of tobacco. Have chewed d smoked for twenty-five years, and two packages our Tablets cured me so I have no desire for it.

THE ORIO CHEMICAL CO.:—GENTLEMEN:—Sometime ago I sent for \$1.00 worth of your Tablets for Tobacco Habit. I received them all right and, although I was both a heavy smoker and chewer, they did the work in less than three days. I am cured.

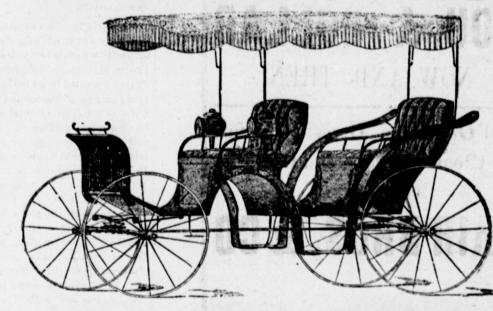

Truly yours, MATHEW JOHNSON, P. O. Box 45. THE ORIO CHEMICAL Co.:—GENTLEMEN:—It gives me pleasure to speak a word of praise for your Tablets. My son was strongly addicted to the use of liquor, and through a friend, I was led to try your Tablets. He was a heavy and constant drinker, but after using your Tablets but three days he quit drinking and will not touch liquor of any kind. I have waited four month before writing, in order to know the cure was permanent. Yours truly, MRS. HELEN MORRISON.

THE ORIO CHEMICAL CO:—GENTLEMEN:—Your Tablets have performed a miracle in my case.

I have used morphine, hypodermically, for seven years, and have been cured by the use of two packages of your Tablets, and without any effort on my part.
